

MASI SWING SNOW RAKE

PRO

The snow rake is an efficient tool for sweeping away light snow from your front steps and pathways. The rake is also suitable for gardening.

The new and improved Masi Swing snow rake offers a quick and efficient way to clear snow from your steps, patios, and pathways. The snow rake is suitable for both garden maintenance and professional use. The rake can also be used as a levelling tool in tiling and foundation work. The product is an internationally patented Finnish innovation manufactured in Finland.
